

21-42 Lead Real Time Software Developer

Location: Spain (or remote within 2 time zone difference)

About this job:

Lead Real Time Software Developer will be responsible for developing our Pareteum MVNE platform, spanning telecom BSS/OSS, OCS systems and network elements. You will oversee a team of developers, operating under an established Agile framework, continuously collaborating with QA analysts and Product Owners.

The platform itself is a legacy monolith in transition towards a set of micro-services deployed on Kubernetes clusters.

The successful candidate will work with people in multiple time zones, and therefore, is flexible on working hours.

What you'll do:

- Experience with C#.
- Experience with C/C++/Golang. Golang a real plus.
- Experience in real-time low latency processing systems design.
- Experience with large volumes processing.
- Good understanding of system development life cycle. and quality assurance process, including CI/CD processes.
- Experience in operating under Agile processes, Scrum or Kanban.
- Knowledgeable in Unix/Linux scripting (shell, Python, etc.).
- Familiar with SQL and relational databases – Oracle, Microsoft SQL Server, PostgreSQL.
- Familiar with MongoDB.
- Experience in DB design, both SQL and No-SQL.
- Experience with micro-services architectures.
- Experience with containers (Docker).
- Experience with Kubernetes.
- Experience with cloud deployments, especially AWS.
- Experience with CI/CD tools (TeamCity, Gitlab CI).
- Solid understanding of TCP/IP network architecture, with solid programming experience.

And also, nice to have

- Experience with event processing platform and applications – (Apache Kafka, NATS, etc.).
- Experience with Domain-Driven Design (DDD).
- Experience with Clean/Hexagonal/Onion software architecture.
- TMForum Frameworkx understanding.
- Experience with 3GPP architecture, particularly PCC.
- Experience with the Diameter protocol.
- Experienced with Atlassian Jira and Confluence as a user.
- Knowledge of Telecom market.

About you:

- University degree in Computer Science or related fields preferably.
- Minimum of 5 years experience in software solution delivery.
- Experience of Telecommunications industry is preferred.
- Experience in working in a multi-cultural environment.
- Ability to use English as the main language for communication, both verbal and written.
- Experience in working with remote offshore teams.
- Excellent interpersonal, good research, analyzing and problem-solving skills.
- Ability to work independently and under pressure

Do you want this job, and do you have the required skills and experience?

Then we invite you to send your resume/cv and cover letter, both in English, to Recruiting@Pareteum.com. Please include the job number and title in the subject line of your email.
